

This is a story of a family's love of food and the way it should be. My mother started in our home kitchen in 1965 with requests from family, friends, and neighbors. She outgrew her home and two other locations. Working along side mom, after school, and weekends, I learned every phase of the business.

Her philosophy on food was simple; the best ingredients and special attention to seasoning. The way food should be.

All the menus feature the same high quality, making clients our best advertisement. Real eggs, butter and heavy whipping cream are staples in my kitchen.

Every event is treated as if it were a special occasion for my own family. Clients work directly with the owner. Large or small, I can make your event a success.

From your initial phone call, I will be there for every aspect of your event. I am as real as my ingredients. You decide how much or how little your needs are.

This is my life's passion, from mother to me to you. Service offered right for four decades. I promise you as I promised mother; "you won't be disappointed."

Leslie

## Our Mission

*To serve High Quality home-cooked food fit for a King, priced for a Commoner*

We pride ourselves on our contact service as much as our cuisine. You will talk with a real person, have a typed proposal within 24 hours faxed, mailed or e-mailed to you. We are licensed and insured for your peace of mind. We employ only the most courteous professionals in our industry. We will make your occasion exactly what you want - from the appetizer to dessert. From simple to extravagant, we will meet or exceed your expectations. We will help with every aspect of your gathering, and you will be treated with respect.

## Beverages
